JUN 14 1980

19 JUN 80 0238 USE 0-73 FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z" figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addressees immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY: draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z" figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____".
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

[REDACTED] OF FACT THAT

EDWIN PAUL WILSON ADMITTED TO UK 12:30 AM, AUGUST 28, 1980, ON FLIGHT FROM MALTA ADVISING HE WAS ON HIS WAY BACK TO US AND WOULD BE IN UK FOR ONLY A FEW DAYS.

[REDACTED] ADVISED ON THE SAME DATE THAT [REDACTED]

WILSON WAS TRAVELING ON US PASSPORT NUMBER Z 2970772, WHICH WILSON SAID HAD BEEN ISSUED HIM IN SWITZERLAND. POLICE SAY WILSON CLAIMED HE DID NOT HAVE US PASSPORT H 1052909. WILSON WAS UNACCOMPANIED WHEN HE LEFT MALTA.

POLICE MAINTAIN THEY HAD BEEN UNABLE TO HOLD WILSON ANY LONGER, AS HE HAD SECURED A MALTESE LAWYER WHO HAD FILED A WRIT OF HABEAS CORPUS. THEY CLAIM TO HAVE PLACED WILSON ON A FLIGHT TO LONDON IN THE ASSUMPTION THAT LONDON WOULD BE THE BEST PLACE FOR THE USG TO ARREST HIM AND EXTRADITE HIM. [REDACTED] SAID WILSON WOULD NOT BE ALLOWED TO RETURN TO MALTA.

b6 -2
b7C -2

POLICE WERE UNABLE, I.E., UNWILLING, TO PROVIDE ANY FURTHER INFORMATION CONCERNING WILSON'S UK ADDRESS OR CONNECTIONS. THEY SAY WILSON HAD TOLD THEM HE PLANNED TO RETURN TO THE US FOR CHRISTMAS.

[REDACTED] COMMENTED THAT MINISTRY OF FOREIGN AFFAIRS AS LATE AS 1100, AUGUST 28, 1980, ONCE AGAIN DEFERRED SCHEDULED MEETING BETWEEN EMBASSY AND ATTORNEY GENERAL'S OFFICE REPS TO DISCUSS NEXT STEP IN WILSON CASE, SAYING WILSON WAS SAFELY UNDER THE EYE OF THE POLICE AND THAT AG'S OFFICE NEEDED TO BRIEF ITSELF ON THE MATTER.

POLICE ACTION, WHICH WAS PRESUMABLY DIRECTED BY THE PRIME MINISTER, IS UNFORTUNATELY THE TYPE OF RESPONSE EXPECTED FROM THE MALTESE, ANXIOUS TO AVOID THE INCONVENIENCES AND POSSIBLE POLITICAL EMBARRASSMENT OF ANY MORE FORMAL ACTION. [REDACTED]

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z" figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

INSTRUCTIONS

(1) Submit an original only of the FD-515 within 30 days of a recordable accomplishment. Submission of each statistic should not be delayed awaiting the accumulation of several statistics.

(2) The date the FD-515 is submitted must be shown.

(3) The field office file number and appropriate subclassification, if applicable, must be set forth.

(4) Category A - **"PRELIMINARY JUDICIAL PROCESS"** - This indicates the number of subjects against whom judicial action has taken place. The number of subjects must be indicated with a numerical entry, and not with the letter "X" or a check mark.

FOR EXAMPLE: If 4 subjects have 10 Bills of Indictment returned against them, enter 4 on line 3.

(5) Category B - **"FINAL JUDICIAL PROCESS"** - This, again, indicates the number of subjects and the number of counts or violations for which the subject is convicted. The number of counts shown on lines 5 and 7 must equal or exceed the number of subjects indicated on lines 4 and 6, never be less. Category 4 and 5 or 6 and 7 cannot be claimed prior to sentencing.

FOR EXAMPLE: If a subject is convicted for multiple counts in a single indictment or is convicted on a number of individual indictments, the entry in either case will be one subject convicted.

(6) Category C - **"SENTENCES"** - Indicate only the number of subjects and where a combination of sentences are imposed, enter only the most severe sentence. The number of subjects cannot exceed the number of subjects indicated in Category B, lines 4 and 6. The amount of the fine (line 5), if any, is always claimed in conjunction with either lines 1, 2, 3, or 4.

(7) Category D - **"ARRESTS/LOCATES/SUMMONS"** - Indicate the number of subjects under designated priorities.

(8) Category E - **"RECOVERY AND LOSS PREVENTED"** - Recoveries - When stolen or illegally possessed items with intrinsic value are recovered as a part of an FBI investigation, the value of the item should be recorded. Restitutions will be recorded in this category when ordered as part of a sentence.

Potential Economic Loss Prevented - Record items such as counterfeit securities, money orders, Cashier Checks, Travelers Checks, and pirated copyright and patented material.

A justification airtel must be submitted with the FD-515 as an enclosure when the recovery or potential economic loss prevented exceeds \$1,000,000.

(9) Category F - **"CIVIL MATTERS"** - To record an entry in this category, it is necessary to conduct actual investigation in the matter. Both the original amount sought and the damages awarded by the court are to be recorded under amount of suit and settlement or award. Therefore, if numbers 1 or 3 are completed, it is necessary that number 2 and 4 also be completed even if by zero. The only exception would be when monies are paid by the subject in Ascertaining Financial Ability Matters wherein it is not necessary to record an entry in F3.

(10) **"REMARKS"** - Identify the name of the subject(s) and when reporting a conviction identify the Title, Section, and Code applicable to each count convicted.

(11) **Errors** - If a previously submitted FD-515 is determined to contain an error after verifying the statistic on the Monthly Statistical Results Report, submit an original only of the FD-515 clearly marking the top of the form in red ink with the word **"AMENDED."** Other than the title, FBIHQ file number (if known), field office file number, and date, only complete the category being corrected by a numerical entry representing the appropriate decrease or increase. If this entry represents a decrease, insert a minus "-" sign and if an increase, insert a plus "+" sign directly to the left of the numerical entries which will signify the type of correction.
